

NOTICE OF PROJECT COMMENCEMENT

SUN-CANADIAN PIPELINE BANK STABILIZATION PROJECT

Toronto and Region Conservation Authority (TRCA), on behalf of Sun-Canadian Pipeline Company Ltd., is preparing to undertake bank stabilization works along the East Don River, within the East Don Parklands, in the City of Toronto, as shown on the map below. The project will involve the implementation of bank stabilization works to protect a section of exposed decommissioned pipe infrastructure. Tree removals, which will be required to facilitate the bank stabilizations works, will take place in mid-February 2018 in order to avoid the nesting period of migratory birds.

The bank stabilization work is tentatively scheduled to commence during the week of July 2, 2018, pending the receipt of the necessary permits and approvals, and is anticipated to be completed by Mid-August 2course 2018. Regular inspection and cleaning of the roadways along the access routes will be completed to minimize disruption to the community during construction.

For your safety, please obey all posted construction signs and stay clear of the work area and equipment.

Your cooperation and patience is appreciated.
